**Forecast for Friday 22 Jul 2022**

**Weather:** Many climbing areas will be dry with mostly cloudy skies. However there will be some brighter interludes, best over north Highlands. Thicker cloud in the afternoon may produce a few light showers.

**Chance of cloud-free hill tops above 800m:** 60%

**Low cloud and visibility:** Fairly extensive cloud cover and very poor visibility above about 700 to 800m, becoming more broken at times, especially in north of area. Good visibility below the cloud layer.

**Met Office Aberdeen Meteorologist's View**
Good walking conditions thanks to dry weather and light winds. However extensive cloud cover at higher elevations will spoil some views.

**Forecast for Saturday 23 Jul 2022**
**Weather:** Deceptively dry, bright start. Soon becoming cloudy with outbreaks of rain spreading in from West Coast to most ranges during the morning. Brighter skies and some heavy showers will follow in the afternoon.

**Maximum wind:** Strengthening southerly winds over higher ridges and summits. Average speeds of 20mph increasing 30mph during morning with gusts 45mph developing over the tops.

**Chance of cloud-free hill tops above 800m:** 70% reducing 30% for a time, always best in east.

**Low cloud and visibility:** Good visibility at first with clouds above many of the tops. Clouds will become extensive lower down the hills for a time, especially in west of area with visibility becoming poor as rain moves in. Higher cloud bases and good visibility returning during afternoon in north and east of area.

**Temperature:** **Glens:** 12 Celsius rising to 18 Celsius.
**At 800m:** Plus 11 Celsius.
**Freezing level:** Above the tops.
